OLD TOWN CHAPTER - # 5039

HARLEY OWNERS GROUP

TAMPA, FL

Director Dennis “Gomez” Adams

We held our first Chapter Meeting at the Tampa Bay Harley-Davidson (TBHD) Dealership, due to a conflict with the hotel. I want to thank the Sales and Merchandise Team for helping me set up the chairs and all the members that came early to finish setting up the sound and video equipment. Thanks to RedStar for selling food and drinks, and Jason for giving members a “Chapter Meeting Sales Special” on Boots and Helmets that a handful of Members took advantage of.

We had another overnight ride to DC for Ride to Remember (was called Rolling Thunder, in the past) led by Past Director Sr. Road Captain David Brown. From the pictures, it looked like they had a great time. Up next for overnight rides, is Sturgis. I am sure David has a nice trip planned for that ride as well.

Our Assistant Director Herry Werner led a ride to Keith’s Oaks Bar & Grill, that also came back to the Dealership, where Jason and the team had a special day planned for mothers for Mother’s Day. Several of our members took advantage of getting a massage and some treats they had for any ladies that came by for a visit.

Rainy season is upon us. Several rides had rain, with one so heavy, the Lead Road Captain made the call to shorten the ride and divert it to a different restaurant. To get ready for the rain season, I spray my raingear down with Camp Dry used for camping tents. No rain gear is waterproof at 70 miles an hour, but the spray does make a difference.

It is also time to check your tires. Nothing is more important than tires during a rainstorm, other than riders slowing down on the throttle. If you need a quick inspection done, stop in and see Johnny in service. He has a new tire brand that some members already have on their bikes.

Also be sure to keep drinking water. Between the added layer of the rain gear and the heat, riders will sweat more than normal. I keep a water bottle in a holder on my handlebars to take a quick sip when I am at a traffic light.

Membership is slowly increasing. Come out and meet some of our new members and show them why we are the greatest HOG Chapter around and great support for TBHD.

Dennis “Gomez” Adams
Director OTC 2024 - 2025

HAPPY FATHER'S DAY

This month we celebrate Father's Day. I realize that many people have what might be called "complicated" relationships with their fathers. I was, luckily, not one of them. Though we had our rough period in my late teens and early twenties, we worked it out and enjoyed a wonderful relationship thereafter. Sadly, he died fairly young and has been gone for 30 years now. I am, however, fortunate to have many great memories of my father. Permit me to share one story in particular.

Not long after I moved to Western New York in the early 80's, I happened to be walking down the street and came upon two teenage boys trying their best to muscle up a ladder against a building. They clearly had no idea of the "proper" or "easy" way to stand a ladder up. Which got me thinking about all of the things my father taught me how to do as I was growing up – like stand up a ladder (alone!). So, I decided to stop at the post office and send my father a postcard (which we did from time to time back then – well before cell phones!). I thanked him for all of the things he taught me and that I was lucky to have a father like him. A few days later, I got a postcard from my father, it simply read: "Dear Son, I knew I'd turn out OK. Love, Dad."

I kept that postcard from my father on my workbench over the years as a reminder to myself of my relationship with my father, and, perhaps, a prod to be the best father I could be to my own children and, hopefully, teach them a few things along the way as well. Fast forward 21 years after my father's death. After my mom died, my sister was cleaning out the house and came across the postcard that I had sent to my father those many years before. He had kept his too! I now have both postcards framed and on the wall over my desk. They are very special to me, as are all of my memories of my father (mom, too, but this is about Father's Day!). I hope all of you have memories of your fathers that bring a smile to your face.

On to Chapter business. There are a lot of great rides on the calendar in June to some perennial favorite spots (JB Boondocks and Solomon's Castle come to mind) as well as some relative newcomers (Blackburn's BBQ, McGrath's Irish Ale House and Chuy's Tex-Mex). Come on out for what I'm sure will be some great rides to some great locations and enjoy some good times with your fellow Chapter members!

We will also begin gearing up for our major fundraising effort for Dogs, Inc., which we commonly refer to as "Paws for Patriots". If you have any ideas for things that we can do to help raise funds for our favorite charity, please let me or Dennis know. If you have items that we can auction off at our monthly Chapter meetings, let us know. Beginning in June, we will have our first planning meeting for our fundraising efforts. Several of you have already stepped up to volunteer to help, which is truly appreciated. Anyone who wants to pitch in to help plan and/or help out is welcome to attend these planning sessions. Trust me, I welcome the help!

As we swing into summer, please remember to stay safe out there and come on out and ride!

Drew's Views – Skills & Stats

We're going to address accidents again this month. The more we know about "motorcycle accidents" the better riders we'll be. I know we have many members who want more to improve their individual skills and knowledge. This piece closes with 3 URLs, if you want to explore this topic further, or check out "the source" firsthand.

[The 1981 Hurt Study](#) tells us, "The motorcycle riders involved in accidents are essentially without training; 92% were self-taught or learned from family or friends." (Yes, this is quite old, but it still makes the point considering the next sentence.) However, I recently learned from a Hillsborough County Sheriff who teaches riding, graduates of the Experienced Rider Course are involved in less than 2% of all motorcycle accidents; so, this program works.)

All the information included in this section and most you find on-line is great, but it will not replace an experienced riding coach. The best thing you can do for your safety is take a class with the TBHD Rider's Academy or the Tampa PD SMART Course.

In the information below, you'll find riding techniques as well as links to other sites that have excellent info. Here's another finding of the Hurt study:

"Ninety percent of all motorcycle crashes happen within the first hour of riding; 50 percent happen within the first 6 minutes." **[Good habit: practice swerves and quick stops in your first 6 minutes of riding instead.]** Additionally, a Minnesota traffic study noted that most motorcycle crashes happen during the rush hours, particularly in the evening.

So that's it – check out the links below if you want more info.

Ladies of Harley:

Thank you to all who came out and joined me at 22 Moons Tea Room. It was a fun and enjoyable afternoon. Thank you to Deborah Speicher for the giveaways at the event. The food was good, the atmosphere was nice, and the company was outstanding. Just a couple of notes for the upcoming month. With the Chapter Meeting being moved to June 13th, our next LOH Meeting will be on June 17th at Portillos. Father's Day is June 15th and a reminder that the Dealership will be having an event for Dads. We have our Road Captain Appreciation Dinner scheduled for June 25th. I will have a sign-up sheet at the next Chapter Meeting for those of you who can bring food for the event. If you can't bring food and would like to donate money, we accept that too. We will use the money collected to fill out the dinner menu. Our Road Captains are such an important part of our Chapter, and this is one way we show our appreciation for them. Also, anyone that can volunteer to help set up that night, please let me know.

I am hoping to have another event planned soon so please keep a look out for the information.

Open Discussion: Dennis Adams - Chapter Meeting concern with enough space for merchandise tables, sign in tables, etc. at Tampa Bay Harley Davidson. There are concerns with having the meeting upstairs at the Dealership due to stairs and only one way to egress. We would need to get a firm commitment/contract with TBHD/Jason to obligate the Dealership for meetings. Jason offered the breakroom area, training room, hall – stairway and upstairs room with one room that we could use to secure our stuff (chairs, tables, speakers, equipment, merchandise, etc.

We will need the bar and food set up by 6:00 p.m. Sign in tables, merchandise tables, event and 50/50 table by 7:00 p.m.

An additional meeting will be held by those Board Members who have further concerns or suggestions related to this potential change of venue at the Dealership on Thursday, May 15th at 6 p.m.

With no further discussion, the meeting was adjourned at approximately 7:27 pm.

Respectfully submitted,

Florida's "Move Over Law" – Motorcycle Safety Tips

In Recent News: A motorcyclist was "ejected" from his bike and propelled into the back of a Road Ranger truck stopped on the side of the highway, and his motorcycle hit the back of an SUV the Road Ranger was assisting. As the investigation is pending, there may be a question of whether another vehicle caused the biker to hit the Road Ranger's stopped vehicle. Tragically, the biker died as a result of the crash and the Road Ranger himself (sitting in the truck) may have catastrophic or life-threatening injuries.

Florida Statute 316.126 (Paraphrased)

If an authorized emergency vehicle, sanitation vehicle, utility service vehicle, wrecker, road, bridge maintenance, construction vehicle, or a disabled vehicle is stopped on the side of the road displaying warning lights or hazard lights ... the driver of every other vehicle, as soon as it is safe shall "vacate" the lane closest to such vehicles when driving on a highway with two or more lanes traveling in the direction of the emergency vehicle.

If such movement cannot be safely accomplished, the driver shall slow to a speed limit 20 mph less than the posted speed limit when the posted speed limit is 25 mph or greater or slow down to five (5) mph when the posted speed limit is 20 mph or less, except when otherwise directed by law enforcement officer. A violation may result in a traffic infraction, punishable as a "moving violation" with related fine and points added to your driver's record.

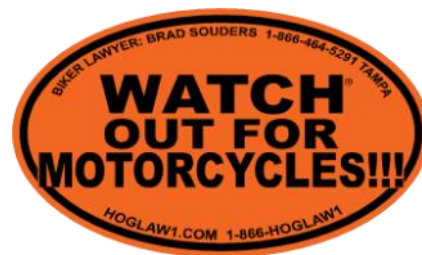

As a motorcyclist, we must be extra alert, attentive and watchful of our surroundings and must move over (or reduce our speed if we cannot move over). We must also have "situational awareness" as we are extremely "vulnerable" to hazards – sometimes faced with multiple hazards at the same time. This is especially true in rush hour or congested traffic situations. By following the rules, we considerably increase our chances of keeping ourselves and others alive. Additionally, a violation of the law results in a fine and points on your driver's license, which can lead to other consequences.

By having situational awareness and following the "Move Over Law", we significantly reduce risks of being involved in a crash, towards protecting ourselves, our emergency responders and many others.
